

PRECISION FABRICATION

Lake Air Companies' corporate slogan is **Committed to Precision and Performance**. It all starts with pride in experience, workmanship and pride with the finished product. For several decades Lake Air Companies has built on that pride to earn the trust of businesses – ranging from Fortune 500 corporations to small, independently owned companies around the world.

At Lake Air Companies, our business is based on precision manufacturing techniques and exacting standards of quality. Using state-of-the-art equipment and technology, our skilled employees have the talent, the training and the experience to come through for you on time...every time.

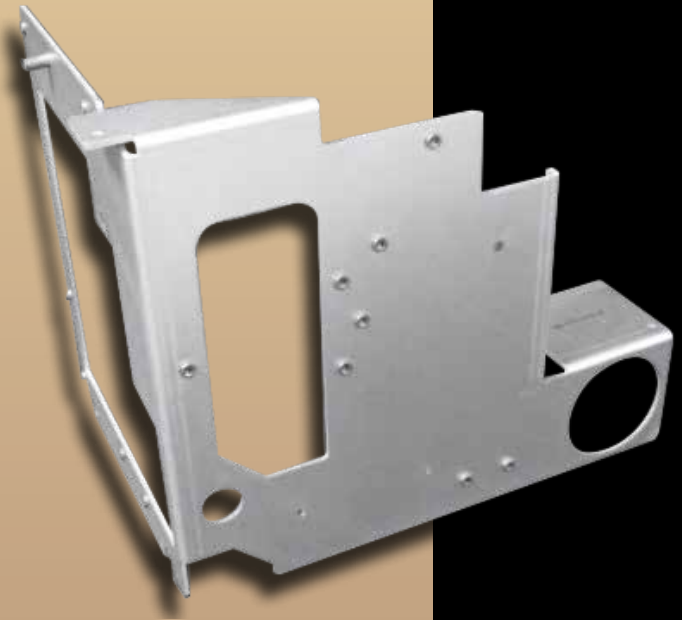

From sophisticated medical equipment to durable industrial parts – from punching and piercing to milling and drilling, Lake Air Companies is your “one source” supplier. From concept through completion, we turn your ideas into reality.

Lake Air Companies is a leader in precision metal fabricating, annually producing thousands of different and unique parts. Our in-house tool and die shop ensures that every part we produce is designed to meet the tight tolerances you require and the production efficiency expected to keep your costs competitive.

Secondary operations include:

- Hardware Insertion
- Drilling
- Riveting
- De-Burring
- Packaging
- Tapping
- Spot and Stud Welding
- Sanding
- Mechanical Straightening

We offer these services individually, or together in any combination your project requires. We will also consider adding new services to meet your unique needs.
